

(Somewhere over the rainbow- Israel Kamakawiwo'ole/ Imagine- John Lennon)

Someday after the Pandemic

von Evi und Lina Sandersfeld

uh- uh-uh- uh
uh- uh- uh- uh

Imagine there's no virus
It's easy if you dream
no social distance
hanging out with friends

Imagine all the people
living their normal life- uhuh

Imagine there're no problems,
about hospital space
everyone needs masks
but there are not enough

Imagine all the people
living their normal life - I had a dream

someday, after the pandemic
we'll be free
and I'll tell my grandchildrens
'bout this lifechanging history

someday, after the pandemic
we'll be happy
and the streets are filled with people
laughing and watching the sunset

someday I hope they will announce
that some doctors found a new vaccine
and all the presidents will share and no one has to die
anymore

uh- uh- uh- uh
uh- uh- uh- uh

someday, after the pandemic
we'll be free!
